

### Smoking Shelters / Personnel Shelters

#### Virtually maintenance free GRP Construction

Fibaform Shelters are the ideal solution wherever personnel need protection from the elements. Either choose from our standard size range or, alternatively let us know your basic requirements / usage and we will design you a custom built shelter incorporating all your needs.

#### Glazing

Glazing can be specified in either toughened safety glass or polycarbonate in anodised aluminium frames.

#### Colours

Shelters can be supplied in an BS4800 or RAL colour.

#### Options

Internal / external lighting.  
Bench seating.

#### BESPOKE RANGE

We can manufacture shelters to customers exact size requirements. Our bespoke shelters can be delivered ready built, or alternatively in panel form for self assembly where access is difficult, i.e. oil rigs, high level plant structures etc.

#### Delivery and Installation

Fibaform offers a full delivery and installation service to anywhere in the UK.

#### STANDARD RANGE

Our standard range are moulded in one piece and can be supplied in the following sizes. Please note that standard range shelters cannot be supplied "flat pack".
