

The Guardmaster Range of Buildings

10.0m x 4.5m building with matching grp fascia

4.0m x 4.0 Gatehouse with matching grp fascia

Delivered ready built and installed in the same day

The Fibaform Guardmaster range of buildings can be manufactured in a size to suit your exact requirements:

- *Any length up to 20 metres*
- *Any width up to 5 metres*
- *Doors and windows can be positioned wherever required*
- *Any colour from the BS4800 range*

Manufactured from almost maintenance free glass fibre with a life expectancy in excess of 20 years, the Fibaform Guardmaster Range can be specified with many options from our comprehensive list including:

- *WC compartments*
- *Electrics and lighting*
- *Worktops and shelving*
- *Kitchen areas*
- *Heating and ventilation*
- *Airconditioning*
- *Floor covering*
- *Security shutters*

Buildings are normally delivered ready built by hiab vehicle for off-loading onto a pre-prepared concrete base (by others). Fixing down is a relatively simple job utilising the internal fixing points. Where site access is difficult, buildings can be delivered in part built form with installation being completed by our engineers.

11.0m x 3.8m control room / welfare building—delivered, installed and ready to use in the same day

The Guardmaster Range of Buildings – Specifications and Options

Windows

Standard windows comprise of anodised aluminium frames with 4mm toughened glass. A full range of alternatives can be specified including:
